

NAME: -SHAILESH SURESH VISHWAKARMA

ADDRESS: - JAGJIVAN RAM NAGAR, TELEPHONE COLONY,

AKOLA, MAHARASHTRA 444001

CAREER OBJECTIVE: -

To secure a challenging position in a reputable organization where I can expand my learning, knowledge, and skills. I am seeking a responsible career opportunity to fully utilize my training and skills while making significant contributions to the success of the company. I am motivated to contribute my expertise, collaborate with a talented team, and drive positive results in a dynamic and growth-oriented environment.

SKILL SET: -

- **SQL**: Proficient in writing and optimizing SQL queries, performing database operations, and managing data.
- **PL/SQL**: Experience in developing and maintaining PL/SQL stored procedures, functions, and triggers for database applications.
- Python: Strong programming skills in Python, including data manipulation, analysis.
- Oracle EBS: Familiarity with Oracle E-Business Suite (EBS) modules and functionality, including implementation and customization.
- Data Entry: Accurate and efficient data entry skills with a keen eye for detail and strong organizational abilities.

EDUCATION: -

Bachelor of Electronics and Telecommunication Engineering (B.tech)
2021

Dr. Babasaheb Ambedkar Technological University, Maharashtra, India CGPA: 7.96/10.00

 Diploma in Electronics and Telecommunication Engineering 2018

Maharashtra State Board of Technical Education, Maharashtra, India

Percentage: 72.70%

ENGINEERING PROJECT: -

Product Sorting Machine Using PLC

> Role:

- Designed the circuit diagram on PCB and performed etching, component mounting, and soldering.
- Collaborated with team members to ensure proper functionality and integration of the sorting machine.

Key Skills

- Good communication skills: Effectively communicated with team members to ensure smooth collaboration and project progress.
- Technical proficiency: Demonstrated strong technical skills in circuit design, PCB layout, and assembly.
- Meditation: Maintained focus and attention to detail during the precision work of etching, component mounting, and soldering.

Project Details:

In this project, I developed a product sorting machine using Programmable Logic Controller (PLC) technology. The machine was designed to sort objects based on various parameters such as dimensions, colors, and materials. It involved designing the circuit diagram on a PCB and performing tasks like etching, component mounting, and soldering. The project aimed to improve efficiency and accuracy in industrial sorting applications.

> Strengths:

 My strengths lie in my flexibility and patience. I adapt quickly to changing project requirements and approach tasks with a calm and composed mindset. I strive to deliver my best performance and take pride in creating a positive impact through my skills and contributions.

PERSONAL INFORMATION: -

Marital Status: Unmarried

Languages Known: English, Hindi, Marathi. (Read, Write & Speak.)

> Interests & Hobbies:

- Travelling: Enjoy exploring new places and learning about different cultures.
- Trekking: Love the challenge of hiking and the beautiful views that come with it.
- Bike Riding: Passionate about exploring new road and freedom of the open road, and destinations on my motorcycle.

DECLARATION: -

I hereby declare that all information furnished by me is true to best of my knowledge.

Date:

Place: Akola (Shailesh Vishwakarma.)
